

EPSIVOL MESH

Frames:

- Composed of 2 uprights 50 x 50 mm, thickness 1.5 mm, profiled and painted.
- Uprights assembled with profiled and galvanised crossbars and diagonal braces, bolted to the uprights.
- Perforations in the uprights every 50 mm.
- With mesh side panels, depth 600 or 800 mm.

Mesh back panels:

- Height 2000 or 2500 mm.

Mesh roof:

- Length x depth: 1800 x 600 or 1800 x 800 mm.

Door:

- Lockable double door, length 1800 mm (2 x 900 mm).

Levels:

- Composed of 2 painted beams with welded connectors.
- Step beams with electrozinc wire shelf and support beam.

COMPONENTS OF THE 2 OR 3-LEVEL KITS

STARTING BAY:

- 2 frames
- 4 step beams (2-level version) or 6 (3-level version)
- 8 safety pins (2-level version) or 12 (3-level version)
- 4 electrozinc wire shelves (2-level version), 6 (3-level version), 2 shelf modules/level
- Doors, side and back panels, roofs (delivered in modules with all necessary screws for the assembly)

EXTENSION BAY:

- 4 step beams (2-level version) or 6 (3-level version)
- 8 safety pins (2-level version) or 12 (3-level version)
- 4 electrozinc wire shelves (2-level version), 6 (3-level version), 2 shelf modules/level
- 1 frame
- Doors, side and back panels, roofs (delivered in modules with all necessary screws for the assembly)

ADDITIONAL LEVEL:

- 2 step beams • 4 safety pins • 2 electrozinc wire shelves

1 Containment tray:

- Capacity: 375 litres.
- Length x height x depth: 1800 x 361 x 800 mm.
- For non-corrosive pollutants.
- Only for use with kits depth 800 mm (600, please ask).

*Trays not included, optional. **Maximum uniformly distributed load capacities. The loads indicated are on shelf and per level.

- For storing semi-heavy or bulky items with restricted access (hazardous products, high-value goods, tools, etc.).
- Scalable, the mesh Epsivol can be adapted to suit new storage requirements by adding additional levels (you must check the load capacity per bay, please ask).
- Modular so you can easily mix Epsivol mesh and standard Epsivol (see p. 180) in the same bay to create some spaces with easy access and others with secure access.
- The optional containment tray is ideal for protecting the floor against any leakages of non-corrosive pollutants.
